PROFESSIONAL SUMMARY

AI solutions professional with hands-on experience deploying generative AI systems, measuring deployment outcomes, and translating technical AI performance into clear business value. Proven ability to communicate complex AI concepts to diverse audiences — from DoD leadership to nonprofit executives, and to design frameworks that track whether AI is delivering on its promised results. Experienced building and validating AI tools, developing measurement plans, and leading training programs that drive real adoption. Ready to bring this background to a customer-facing role accelerating AI success at scale.

EDUCATION

University Of Hawaii at Mānoa

Honolulu, HI

Master of Science in Information System, Summa Cum Laude

Graduated: December 2025

Bachelor of Science in Management Information Systems, Cum Laude

Graduated: December 2024

CERTIFICATIONS AND SKILLS

Certifications: CompTIA Security+ (SY0-701) | AWS Certified Solutions Architect – Associate | Interim Secret Security Clearance (DoD – Pending)

Skills: SQL | Python | Excel | Power Automate | Databricks | Geodatabase Management | CRM Platforms | Generative AI (ChatGPT, Claude, Copilot) | Prompt Engineering | Chatbot Deployment | AI Policy | AWS | Network Security | UNIX | HTML/CSS | Microsoft 365 | Dashboard Development | Measurement Frameworks | Executive Reporting | Technical Training

WORK EXPERIENCE

aio Digital

Honolulu, HI

AI Solutions Analyst

January 2026 – Current

- Built and deployed a secure generative AI chatbot scoped to approved internal data, implementing data-leakage controls and access restrictions to ensure responsible, policy-compliant AI use
- Designed and maintain measurement frameworks to track AI performance, investment outcomes, and operational risk — directly supporting governance and audit requirements
- Validate and maintain large-scale datasets (500,000+ records), defining data quality requirements and closing information gaps critical to reliable AI outputs
- Produce executive-ready insights and data-driven recommendations for senior stakeholders, translating complex AI system behavior into actionable operational guidance

Griffiss Institute (DoD Pacific Intelligence & Innovation Initiative)

Honolulu, HI

Viceroy Maven Intern

June 2025 – August 2025

- Led AI implementation seminars for DoD professionals, translating complex AI concepts — including practical use cases, ethical guidelines, and policy implications — into actionable guidance for non-technical stakeholders
- Built and validated a geodatabase tracking \$10M+ in equipment, diagnosing 38+ data discrepancies across 7,000+ data points and presenting findings that guided senior decision-making on a multibillion-dollar infrastructure project
- Researched digital twin technologies under the Shipyard Infrastructure Optimization Program (SIOP), evaluating their potential to improve AI-driven maintenance operations at Pearl Harbor Naval Shipyard

Hawaii Community Foundation

Intern

Honolulu, HI

February 2025 – December 2025

- Co-authored and implemented organization-wide AI policy guidelines governing responsible use of generative AI and ML tools across all departments, balancing innovation with risk controls
- Designed and led enterprise-wide AI training programs, equipping cross-functional teams to evaluate AI-generated outputs for accuracy, reliability, and organizational risk
- Reconciled and validated 100,000+ records across CRM platforms, ensuring data integrity and system-wide accuracy for high-stakes financial processing (Maui Strong donations)
- Integrated third-party APIs and multi-source datasets to streamline data pipelines and improve reporting accuracy across platforms

University of Hawaii

Honolulu, HI

Curriculum Developer – MSIS Program (AI & Cloud Computing) August 2025 – December 2025

- Designed graduate-level curriculum in AI and enterprise cloud, building hands-on labs and case studies that trained students to deploy and evaluate AI workflows in real business contexts
- Developed technical modules on AWS cloud architecture, applied machine learning, and AI certification preparation — bridging the gap between theory and practical deployment
- University of Hawai‘i at Mānoa

University of Hawaii

Honolulu, HI

Teaching Assistant – ITM 431/ 631 (Networking and Security) January 2025 – December 2025

- Graded and evaluated assignments, exams, and projects for 50+ upper-level MIS students, ensuring fair assessment and reinforcing key concepts in IT infrastructure design and threat mitigation

University of Hawaii

Honolulu, HI

ICS 101 Teaching Assistant August 2023 – May 2025

- Supported 400+ students with technical training in Python, HTML, CSS, UNIX, and Microsoft Office; integrated AI literacy modules covering responsible use and prompt engineering into core coursework.
- Mentored a team of 5 TAs during open lab hours and collaborated with faculty to evaluate AI literacy program effectiveness.

University of Hawaii

Honolulu, HI

Research Assistant - Generative AI Implementation August 2023 – May 2025

- Conducted IRB-approved multi-phase research on student AI proficiency, ethics, and perceptions of generative AI tools
- Evaluated prompt engineering strategies for content generation and information retrieval; applied ACRL standards to assess AI tool use and information quality
- Co-authored and presented peer-reviewed research at the EdMedia World Conference on Educational Technology, Barcelona, Spain (May 2025)

SMX

Honolulu, HI

Project Finance & Export/Logistics Intern June 2024 – August 2024

- Supported supply chain risk management (SCRM) for SOCPAC contracts; automated file management and critical task scheduling using Microsoft Power Automate

PUBLICATIONS

- Corcoran, T. & Olsen, C. (2025). *Information Literacy: A Foundational Approach to Generative AI Competence*. Presented at the EdMedia World Conference on Educational Technology, Barcelona, Spain, May 2025

LEADERSHIP EXPERIENCE

University of Hawaii

Honolulu, HI

Ambassador for the National Center for Women in Technology August 2023 – January 2025

- Founded the NCWIT chapter at UH Mānoa; led outreach events promoting technology careers, mentored students in tech coursework, and partnered with industry to advance diversity in computing.
